Augustus T. Stroud Appointed by Judge Portlock at Instance of Director-General Barr.

Great Numbers Coming in for the Grand Aerie To-Day and Convention Next Week.

(Special to The Times-Dispatch.)

JAMESTOWN EXPOSITION GROUNDS, August 27.—In an effort to solve the problem of the magisterial and police entanglements at the exposition and Pine Beach, Judge William N. Portlock, of the Norfolk county Circuit Court, to-day appointed Augustus T. Stroud, of the Turner's Creek District, a Justice of the peace at the exposition. Judge Portlock holds James M. Barr, of the exposition, responsible for Stroud.

Several weeks ago Judge Portlock appointed H. C. Gorrie as a magistrate, and it was understood that he would preside in the exposition police court, thereby relieving Justice K. O. Backus, whose conduct of the office had been severely criticized. In fact, Justice Gorrie, after qualifying, failed to take up his new duties, and later made a statement that he would not try cases in the exposition police court unless specifically invited by Justice Backus to do so with the latter.

In the meantime Justice Backus has been and is still presiding in the Police Court. The order entered by the court in making the appointment is as follows: "The Hon. J. M. Barr, Director-General of the Jamestown Exposition Company, having filed his petition on behalf of said company, alleging that the public service, as it relates to the territory included within the grounds of the said company, requires the appointment of an additional justice of the peace, with jurisdiction over the said grounds, and having designated A. T. Stroud as a suitable person to be appointed to said position, the court doth appoint the said A. T. Stroud an additional justice of the peace at the exposition grounds."

WORSER FORM OF SCALP ECZEMA

Lasted Four Years—Lost a Great Deal of Hair and Head Was Covered With Scabs—Grew Worse Under Treatments Until

PERFECTLY CURED BY CUTICURA IN 4 WEEKS

"I feel that it is my duty to others that suffer as I did to tell what the Cuticura Remedies have done for me. About three years ago I was troubled with eczema of the scalp in its worst form, a lot of hair came out in great quantities, my head was covered with scabs. I consulted a doctor and he told me that it was only a sore and it would soon heal up. He gave me some salve for it but it did not do any good. Then I consulted another doctor and he told me that it was a very bad case and that I must use a strong medicine for my blood, but the trouble still grew worse. At last I was advised by a friend who had used Cuticura to try the Cuticura Remedies. So I went and purchased a complete set of Cuticura for one dollar and after using them for two weeks all the sores disappeared and in about four weeks I felt completely cured. Altogether I had the eczema for about four years and I am confident that if I had used Cuticura sooner it would have saved me a great deal of suffering and loss of money for doctors' bills. Although I feel that I am perfectly cured I still use Cuticura Resolvent as a spring tonic. Edward Arrie, McKinley St., Chambersburg, Pa., May 2, 1906 and Feb. 24, 1907."

the Harrisonburg Hose Company, No. 4, one of the prize-winning volunteer fire companies of the State, attracted much attention to themselves on the Warpath this afternoon. They gave an exhibition drill, which, for quickness and precision of action, would be hard to beat by any fire company in the country. Volunteer or paid.

The exposition department first met the visitors at the Maryland Avenue entrance to the Exposition Grounds, and escorted them through the various exhibition streets. Forty members of No. 4 were present in uniform, and accompanying them was Colonel Rolter, Mayor of Harrisonburg, and other prominent citizens of that city. Harrisonburg is proud of her citizen firemen.

The drill consisted in making a 100-yard run, the laying of fifty feet of hose and the throwing of a stream of water. They held the Virginia championship in this drill, and have won many prizes.

The exposition band led the parade about the grounds previous to the drill. A ball was given in honor of the visitors to-night.

RURAL SERVICE IS ENHANCING VALUES

Remarkable Success of Country Mail Delivery Is Apparent Already.

WASHINGTON, August 27.—Postmaster-General Meyer, First Assistant Postmaster-General Hitchcock, Second Assistant Postmaster-General McCleary, and Third Assistant Postmaster-General Lawless, were here to-day to inspect the rural delivery service. They were accompanied by Mr. DeGraw, who is in charge of the rural delivery service.

Mr. DeGraw is in Washington again after a brief vacation. Postmaster-General Meyer is having a busy time, from all reports, at his summer home in Massachusetts, which he has recently been visiting with pleasure. Mr. DeGraw, who is a veteran newspaper man, is back at his desk, and is dispatching business as though he thought it was a pleasure to do duty.

Under his jurisdiction is the rural free delivery service, and although little of his busy life has been spent in the country, he has taken a lively interest in the welfare and progress of the rural postal service, and there is no doubt that the consideration shown the service has steadily advanced and gained many new friends.

An appropriate tribute to Mr. DeGraw's good work has just come from Representative D. E. Finley, of South Carolina. Mr. Finley transmits a report of the proceedings of the recent State convention of rural carriers held at Greenville, S. C., and speaks of the general satisfaction expressed by the carriers for the consideration shown them by the last Congress, and of the loyalty of the carriers to the service.

Mr. Finley writes: "I regard the rural service as in a highly satisfactory condition. The rural service, in effect, amounts to a great national university for the farmer. Increased intelligence and knowledge of the outside world, daily contact with the outside world, results in increased earning capacity to the farmer, and this is evinced by the increased prosperity of the people living in the rural districts.

"What the future has in store for the people of the United States I do not know, but it is evident that if patriotism in the people only keeps pace with their mental and material progress, we have reached a condition never dreamed of by the fathers of the Republic."

Great Growth of Service.

The usual monthly report—a little late this time—has just at hand. It is offering to those who care to examine the figures. The total number of petitions referred in the United States is 54,378; number of petitions rejected, 14,842; number of routes in operation, 37,770; petitions pending, 1,404. In this service were 37,621 carriers on August 1st.

Illinois is well in the lead of other States most patronizing the service, having 3,318 routes operating. The other States next in order are Ohio,

with 2,494; Iowa, 2,319; Indiana, 2,112; Pennsylvania, 2,060.

Rural free delivery is largely in favor in the Southern States, but seems not to fare so well in obtaining the service from the department. This, it is said, is because the petitioners are not sufficiently careful in meeting the requirements, to say nothing of lacking equipment in patrons to justify the establishment of routes. The largest proportion of rejections of petitions is in Georgia—forty-eight per cent. Alabama and North Carolina are the next worst, each having forty-six per cent. of its petitions rejected; Virginia has had forty-four per cent. rejected; Tennessee, thirty-seven per cent.; Texas, thirty-seven per cent.; and Ohio, twenty-one per cent.

Rural Routes in South.

The report by congressional districts shows that the Seventh Kansas, represented by Victor Murdock, has the largest number of routes in operation—295. Next is the Tenth Iowa, represented by James P. Connor, with 286 routes operating. The First Tennessee District, represented by Walter P. Brownlow, is third, with 239 routes going.

Two other districts in the South have over 200 routes operating. They are the Eighth Tennessee, represented by Thaddeus W. Sims, and the Third Texas, represented by Gordon Russell.

The highest number of routes in any Texas district besides that represented by Mr. Russell is the first, represented by Morris Shepard.

Oklahoma has had to date 1,641 petitions referred, 712 rejected, 1,129 operating, and 75 petitions pending.

Indian Territory had only 73 petitions referred, 27 rejected, 36 operating, and 10 petitions pending.

The rural service figures by congressional districts in Virginia are:

| Districts. | Petitions referred. | Petitions rejected. | Routes operating. | Petitions pending. |
|------------|---------------------|---------------------|-------------------|--------------------|
| First | 17 | 7 | 6 | 4 |
| Second | 29 | 19 | 36 | 4 |
| Third | 100 | 19 | 36 | 4 |
| Fourth | 124 | 51 | 62 | 10 |
| Fifth | 463 | 263 | 186 | 9 |
| Sixth | 124 | 61 | 98 | 3 |
| Seventh | 70 | 17 | 113 | 3 |
| Eighth | 150 | 52 | 83 | 12 |
| Ninth | 275 | 133 | 137 | 9 |

DISAPPEARS AFTER ATTACKING HIM

K. L. Bowen Stabs Foreman in Back Because of Reprimand and Flees.

Stabbed in the back as he was riding away on his bicycle by K. L. Bowen, Tom Bowery, boss line-man for the Southern Bell Telephone Company, lies in a critical condition in the City Home, where grave doubts as to his recovery are entertained.

The assault on Bowery occurred shortly before 2 o'clock yesterday afternoon, in the rear of the thirteen hundred block of Grove Avenue, where line-men were engaged in wiring some newly set poles. Bowery had reprimanded Bowen about some work he was doing, and then rode away, to go round the circuit to see what the others were doing. On returning, he found that Bowen was still not performing his work in a satisfactory manner, and with a second criticism, got on his wheel to make another tour. Just as he started to ride off, Bowen sprang at him from behind, stabbing him in the back, either with a dirk or a long, sharp knife. Bowery fell forward over his wheel, and, seeing what he had done, Bowen took to his heels and disappeared. The police are still looking for him.

Friends ran to the aid of Bowery, and the city ambulance, with Dr. Hinchman in charge, was summoned. Dr. Hinchman, on seeing the serious nature of the wound, took Bowery to the City Hospital, and attended him. The man was reported last night to be in a grave condition.

BAR ASSOCIATION WORK ON REPORTS

(Continued from First Page.)

schools in making their course one of four years.

Changes in Bankruptcy Laws.

Several amendments to the present bankruptcy law, including an enlargement of the definition of insolvency, and a recommendation that the association approve both the uniform state act and the uniform warehouse receipts act, were included in the report of the committee on commercial law. The changes in the bankruptcy law, as indicated by the report are made under the heads: In the statutory definition and proof of insolvency in fact; in the enumeration of acts of bankruptcy; and in respect to the person or persons qualified to make affidavit to a petition in involuntary bankruptcy. The report says:

"The present restricted statutory definition of insolvency has been much criticized, and is certainly practically embarrassing in matter of proof. It is said to protect a debtor, whose property is not quickly convertible, but on the other hand, it may operate to put creditors at the debtor's mercy. The committee believe that the definition of insolvency in fact should be broadened, and that the statute should provide that insolvency may be further proven by any one of the three following circumstances: viz. By return of nulla bona to a writ of fieri facias; by proof of inability to pay debts in the due course of business as they mature (this being limited to commercial classes); by the appointment of a receiver for a copartnership or other business enterprise. The committee further recommend that the enumeration of acts of bankruptcy be modified or enlarged so as to
